

Introduction to Oracle Application Express (OAE)

What Will I Learn?

In this lesson, you will learn to:

- Log into OAE
- Create the music table using the script provided
- Enter some sample data into the music table created in this lesson
- Query the music table to view the new data
- Refine the query

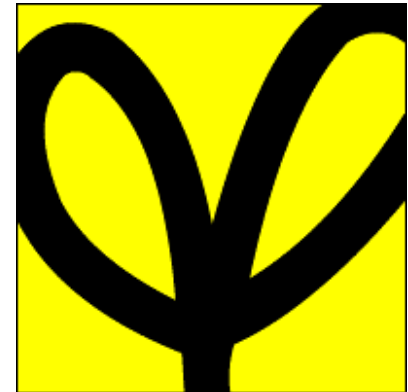

Why Learn It?

You have drawn the plans for your dream house and then transformed it into a physical design for the house. The next step is to actually build the house. You will need tools to do this.

Oracle Application Express (OAE) is a tool that will allow you to build tables in an Oracle database.

Summary

In this lesson, you have learned to:

- Log into OAE
- Create the music table using the script provided
- Enter some sample data into the music table created in this lesson
- Query the music table to view the new data
- Refine the query

Summary

Practice Guide
