

## **Creating Tables for the Final Presentation**

### ***Objectives***

- Create sample tables from the final project presentation ERD
- Add sample data to the created tables
- Produce query output using Oracle Application Express

### ***Try It / Solve It***

#### **Creating Presentation Tables**

Map your ERD to an initial database design. Complete the table instance chart for each table mapped.

Use Oracle Application Express to:

- Create your tables
- Add sample data to created tables
- Write and save queries that will be needed for the final presentation project
